

# Sara Sight - Visual Setup Guide

## Step 1: Install Ollama for Windows

Visit <https://ollama.com/> and click 'Download for Windows'.  
Follow the on-screen instructions to complete the installation.

■ <https://ollama.com/>

## Step 2: Download Vision Models

Open Command Prompt or PowerShell and run any of the following:

```
ollama run llava  
ollama run moondream  
ollama run gemma3:4b  
ollama run baklava
```

Use <https://ollama.com/search> to explore more models.

## Step 3: Download and Run Sara Sight

1. Go to the GitHub Releases page and download the latest ZIP.
2. Extract it to a folder of your choice.
3. Double-click 'SaraSight.exe' to start the application.

No installation required — it's fully portable!

## ■ You're Ready to Go!

Load an image, select your vision model, and enter a prompt.  
Sara Sight will analyze and even read aloud the response!
